

Without K-LOVE I am lost. It is inspiration, love and a gift of hope and faith. I don't attend church due to my husband. I am only able to listen to this station when he is not present. Without this I truly would feel as though I would be lost. I found this station one day, and have been there since. I think of all the lost opportunities that will be lost, without the broadcasting. Portland, Oregon has an economic depression, and people need to have a place to go and listen and have their spirits be renewed. Please do not take this from me and the others who haven't yet found the station. It will be God who will guide them to it, but don't take it away. Too many things already have been taken, not this too! K-LOVE has a positive impact on the community. I listen to the station at work, and I am fortunate that no one has complained about the religious station. So that tells me that they are listening and hearing the words. If you have not heard of the song, "Who Am I" it is time to read the words and listen to the song. It continues to bring me to tears everytime I hear it. I am only one person, but there are others out in the community who may not know of this action. Be a servant of the Lord, and let his music and words continue to broadcast on the FM stations.
